INTRODUCTION

Presently the collection and transportation of MSW in BBMP jurisdiction is carried out in an adhoc basis without proper service provider selected through a competitive tender. During this phase, a lot of initiatives have been taken up by BBMP to create its own infrastructure and reforms in order to have efficient mechanisms to address the MSW management in the city in compliance to SWM Rules, 2016, advisory and guidelines issued by MoHUA, GoI & CPCB and BBMP Bye-laws for Solid Waste Management defining the strategy for various streams of waste and the State SWM Policy. BSWML envisages a short tenure tender for its collection and transportation (C&T) of MSW to enable infrastructure establishment of its own, of the proven processes in line with agreed rules, policies and guidelines.

The scope of this RFP is to undertake primary door to door collection from households and small commercial establishments in all wards of BBMP i.e. collection of segregated Wet waste, Dry Waste, Sanitary waste, Street Sweeping waste and C&D waste from Micro level generator (i.e., upto 300 Kgs) and Secondary Transportation of Segregated wet waste, Dry waste and Other waste in wards of BBMP. Further, the mapping of resources required for each ward is based on waste generation arrived through the ward Micro Plan for Households (HHs) and Small Commercial Establishments (SCEs), Road length and commercial waste generators which is the fundamental planning unit for estimation of quantity and coverage of services. The ultimate aim of this exclusive tender for segregated Wet waste, Dry waste, Sanitary waste, Street sweeping and C & D waste collection is to ensure that only the segregated waste is collected through appropriate infrastructure with 100% coverage of Households and Commercial Establishments **(**Excluding waste generated from Chicken, Mutton & Fish Market/shops and Major Large Markets i.e. K.R. Market, Russell Market, Yeshwanthapur Market, Malleshwaram Market) and that waste stays segregated through the secondary transportation to the designated processing facilities. BSWML from time to time keeping in line with SWM Rules 2016, advisory and guidelines issued by MoHUA, GoI & CPCB, BBMP SWM byelaws and State SWM policy and internal policy stance of BBMP/ BSWML. Having a Strong C&T system based on tender would aid and aim in achieving the 100% segregation of waste at households & Commercial establishments and also aid in achieving the much needed Visual Cleanliness standards that BSWML aims to achieve and maintain in the city in the interest of public health. And BSWML also aim for achieving **“No Garbage on Ground (NGoG)”.**

The selected bidder shall also be responsible for collection and transportation of waste from bus stops, vendor waste from footpath, parking areas, sports centers, restaurants (generating less than 100kgs), under bridges/flyovers, banners/flexes, city squares junctions and removal of black spots/GVC/mixed waste and festival waste.

BSWML is not responsible for the management of bulk waste generated in the jurisdiction, and therefore bulk waste collection is not in the scope of the tender. But in case a Bulk Waste Generator fails to process and manage their own waste and BSWML is forced to manage the same, BSWML shall collect penalties from such generators and direct the Selected Bidder to collect and

transport bulk waste from such generators.

As per the GO UDD 126 TMS 2016 dated 7th August 2017, the wages of the Pourakarmikas is now being paid directly into their accounts by BBMP and the scope of work of the Pourakarmikas is now limited to Street Sweeping and they are excluded from door to door C&T of waste. Therefore, the scope of carrying out street sweeping through deployment of manpower has also been taken out from the scope of this tender.

The scope of work of tender would be suitably amend where found necessary during the remaining period of work, under due intimation to the service provider. This clause may also be applied in case non-performance of assigned work by selected agency(s).

Bengaluru Solid Waste Management Limited (BSWML) has been incorporated as a Government Company on 22-05-2021 under Company Act 2013. The main object of the Company is to implement Solid Waste Management in Bengaluru City.

1.1. Background

- Now Management of Municipal Solid Waste is an obligatory function of BSWML and it is responsible for providing municipal and civic services, which includes the collection, transportation, treatment and disposal of Municipal Solid Waste generated in the city. The Ministry of Environment and Forests & Climate Change (MoEFCC), Government of India (GoI), has formulated the Solid Waste Management Rules 2016 ("SWM Rules, 2016"), which makes it mandatory to implement a scientific solid waste management system.

- In this regard BSWML (the “Authority”) intends to adopt a single stage bidding process for selection of the service provider to carry out collection and transportation of municipal solid waste in all wards of BBMP.

- A Bidder can submit its Bid for the all Packages. However, a Bidder shall be awarded not more than 1 package as per fulfillment of

eligibility criteria as per RFP.

- In the event of restructuring of or within the jurisdiction of BBMP or BSWML, the package boundaries shall continue to remain as per the details given in this document.

- The Authority intends to qualify and select suitable Bidders (the "Bidders") for the Package through an Open Competitive Bidding process in accordance with the procedure set out herein.

- The selected Bidder, (the "Service Provider"), shall be responsible for Primary Door to Door Collection and transportation of wet waste, Dry waste, sanitary waste, street sweeping waste, C&D waste and other waste (Excluding waste generated from Chicken, Mutton & Fish Market/shops and Major Large Markets i.e. K.R. Market, Russell Market, Yeshwanthapur Market, Malleshwaram Market) and Secondary Transportation of Wet waste, Dry waste and other waste to the processing facility as directed by BSWML In-charge officer. The door-to-door collection to include all residential areas, all commercial establishment, government office complexes, non-government office complexes, authorized colonies, unauthorized regularized colonies, slums, large and small shops/markets (Excluding waste generated from Chicken, Mutton & Fish Market/shops and Major Large Markets i.e. K.R. Market, Russell Market, Yeshwanthapur Market, Malleshwaram Market).

- The assessment of actual investment for implementing the Assignment will have to be made by the Bidders. The scope of work of tender would be suitably amended where found necessary, during the remaining period of work, under due intimation to the service provider. This clause may also be applied in case non-performance of assigned work by selected agency(s). Carrying out of all activities apart from activities as listed above towards successful implementation, operation, maintenance and management of the Project in line with SWM Rules 2016, Advisory and Guidelines issued by MoHUA, GoI & CPCB as revised from time to time and Good Industry Practices.

- The statements and explanations contained in this RFP are intended to provide a proper understanding to the Bidders about the subject matter of this RFP and should not be construed or interpreted as limiting in any way or manner the scope of services and obligations of the Service Provider in the Service Agreement or the Authority's rights to amend, alter, change, supplement or clarify the scope of

work, the Rights to be awarded pursuant to this RFP or the terms thereof or herein contained. Consequently, any omissions, conflicts or contradictions in the Bidding Documents including this RFP are to be noted, interpreted and applied appropriately to give effect to this intent, and no claims on that account shall be entertained by Authority.

- Bidder under this RFP would be required to submit a Key Submission and Qualification Submissions and a Financial Bid for the Package in accordance with terms of this RFP document. The Bids would be evaluated on the basis of the evaluation criteria set out in this RFP in compliance of KTPP act in order to identify the Selected Bidder for the Package (s).

- The Authority shall receive Bids pursuant to this RFP in accordance with the terms set forth in this RFP and other documents to be provided by the Authority pursuant to this RFP (collectively the "Bidding Documents"), as modified, altered, amended and clarified from time to time by the Authority, and all Bids shall be prepared and submitted in accordance with such terms on or before the date specified in Clause 1.3 for submission of Bid.

1.2. Brief description of Bidding Process

(A) Bidders would need to submit the following sets of documents as part of their Bid.

(a) Documents mentioned in Clause 2.11.2 - "**Key Submissions**".
(b) Documents as mentioned in Clause 2.11.2 – "**Qualification Submission**", relating to technical and financial capacity of the Bidder.
(c) Financial Bid as mentioned in KPP Portal (To be uploaded in Portal only).

(B) The evaluation of the Bid submissions would be carried out in the following stages;

Stage I: First stage would involve a test of responsiveness based on the Key Submissions. Those Bids found to be substantially responsive would become eligible to be evaluated in the second stage.

Stage II: In the second stage, the information of the Bidders relating to their Technical Capacity and Financial Capacity would be evaluated

as per the criteria set out in this RFP. Only the Qualified Bidders in this stage ("Technically Qualified Bidders") would be considered for the evaluation in the next stage.

Stage III: The Financial Bid of only those Bidders who qualified in Stage II (i.e. Technically Qualified Bidders) above would be opened and their evaluation would be carried out in this Stage in accordance with Section 3 of this RFP.

- Financial Bids are invited for the Assignment on the basis of the Lowest Annual Payment ("Service Fee") to be made by the Authority to the Service Provider during the Agreement Period. The Agreement Period will be for **7 Years**. In this tenure however, the scope of work related to Secondary Transportation using compactors shall be a minimum of 1 year, which is extendable. In case the Secondary Transportation work is to be terminated, the Authority shall duly notify the Contractor at least 3 months in advance. For the avoidance of doubt, it is hereby clarified that no payments shall be made towards the Secondary Transportation work (i.e., compactors) after this termination of partial scope. The Service Fee shall constitute the sole criteria for evaluation of Financial Bids. Subject to Clause 3.7, The Package (s) shall be awarded to the Bidder quoting the Lowest Service Fee calculated by the authority based on the information provided in the Financial Bid.

  In this RFP, the term "Lowest Bidder" shall mean the Bidder who is offering the Lowest Service Fee.

- Generally, the Lowest Bidder shall be the selected Bidder. Lowest Bidder withdraws or is not selected for any reason, BSWML will annul the Bidding Process and propose for fresh tenders.

- Package details have been worked out as per the waste generation arrived at in the ward Micro plan for SWM and costing worked out accordingly. Bidders are however invited to examine the Package in greater detail, and to carry out, at their cost, such studies as may be required for submitting their respective Bids for award of the right of service in the Project Area for the Package with the objective of 100% coverage of Households and Commercial Establishments (Excluding waste generated from Chicken, Mutton & Fish Market/shops and all kind of waste from Major Markets i.e. K.R. Market, Russell Market, Yeshwanthapur Market, Malleshwaram Market) and ensuring that the waste stays segregated through the secondary transportation sent to the designated processing facilities.

- The Authority will provide a draft Agreement prepared by the Authority and other information pertaining/ relevant to the Assignment to the selected bidders.
- Collection and transportation of MSW up to processing plant / treatment facility in BSWML as per the instructions given by Authority. The successful bidder will arrange for the collection of MSW from door to door in such a way that it will be taking from the auto tipper to transfer station/transfer point without touching the ground any time.
- 25% of the collected Dry waste will be transported to Decentralized processing sites (DWCC) as instructed by the authority and rest to centralized dry waste processing facility or as directed by Authority/office in-charge. It shall be the duty of Agency/ Bidder to collect waste in segregated manner. Schedule A: Package Details as per RFP notification.

A. Description of the Package

[The details in the table set out below will be provided to the successful bidder for the Package]

Package Number:

Ward nos. _____

Designated Locations

The details of processing and disposal facilities are as set out below:

Item	Designated Location

Wet Waste Processing Facility	
Dry Waste Processing Facility	
DWCC (25% Dry Waste)	
Other Waste	
Sanitary Waste Disposal	
Garden/Horticulture Waste	
Street Sweeping Waste	
C&D waste (less than 300kg)	

Note: Designated Locations for the Package shall be reviewed and approved by BSWML while finalizing the route plan. Further, BSWML reserves the right to redefine the Designation Locations for the ward at any time in order to achieve the optimization and service level standards set out in the RFP and maximize the efficiency of its processing infrastructure.

Schedule B: Package Area

The package area would be as set out in the map: The package area is enclosed as Annexure Chart-2

It is clarified that the ward boundaries are usually the entire side of the road on the northern & eastern sides, which includes the entire Road (from drain to drain) & also the small commercial establishments/households on either side the Road. In case ward boundary is a major drain then it would include one side of the drain.

Details of Vehicles

1. Vehicle-Waste Stream Mapping for primary collection and transportation

Waste Stream	Vehicle Type
Wet and Dry Waste (Primary D2D Collection & Transportation) for Households & Small Commercials	Compartmentalized vehicle of 1, 2 & 5 Cum where: a. 60% compartment for Dry Waste (Blue Color) and b. 40% compartment for Wet Waste (Green colour) and c. 100 liters yellow color coded of third bin for Sanitary Waste at the back of vehicle.
Commercial Waste Generator (up to 100Kgs)	Purple color coded covered and compartmentalized vehicle of 5 Cum where: a. 60% compartment for Dry Waste (Blue Color) and b. 40% compartment for Wet Waste (Green Color) and c. 2 nos. 100 liters yellow color coded of third bin for Sanitary Waste at the back of vehicle.
Black Spot, Street Sweeping and Construction & Demolition waste (from Micro level C & D waste generator), all other streams of waste	Brown Color-coded Open vehicle of 5cum for the daily collection street sweeping waste and Construction & Demolition waste (from Micro level C & D waste generator)
Secondary Transportation Vehicle	Separate dedicated Compactor Vehicle for Wet Waste & Dry Waste. Each vehicle capacity of 14 cum.

* Successful Bidders must assess the no(s) of wheelbarrows/Push carts for congested and narrow lane of the ward and deploy accordingly and ensure that daily collection of waste from such areas.

SPECIFICATION OF TRUCK MOUNTED GARBAGE COMPACTOR 14 M3 CAPACITY

Vehicle mounted rear loading garbage compactors shall be robust in construction and shall be able to collect of Solid Waste from different spots and/or from the auto tippers and then transport it to designated processing facility. The volume of the compactor shall be around 14 m3. The unit shall be operated by hydraulic systems. The positive compaction against the ejector plate shall be used to enable desired compaction to be achieved at all times for even loading. Proper distribution of load on front & rear axles should be achieved without overloading the axles in any circumstances. The refuse shall be pressed into the compactor by a pressing plate & the mechanism shall enable the full body volume to be filled with compacted refuse. The refuse shall be unloaded by an ejector plate. The operations of this unit shall be such that one driver assisted by two helpers shall be adequate.

COLLECTION & DISPOSAL OF GARBAGE

Collection of garbage shall be done by emptying/unloading the garbage into the hopper of the compactor from the Auto Tipper Compartment bins. These Auto Tipper Compartment bins shall be emptied hydraulically by the bin lifter or even emptied manually as the hopper is easily accessible. The compacting process shall be carried out in stages as described below.

- The packer plate, which initially is at a closed position parallel to the floor of the body, shall open hydraulically.

- Due to the actuation of the carrier plate hydraulic cylinders, the carrier shall come down and the hopper shall shut by the packer plate.

- The garbage from the hopper shall be swept by the packer plate and pulled into the container body by the reverse actuation of the carrier plate cylinder.

- The garbage shall be compacted against the ejector plate as the carrier ascends.

- The tailgate shall be unlocked from the self locking /unlocking arrangement and the entire assembly shall be hydraulically lifted using the two cylinders.

- The compressed garbage within the container body shall be unloaded by the ejector plate by pushing the garbage out of the body with its double acting multi stage hydraulic cylinder.

- This system shall facilitate easy and quick unloading with assured machine stability during discharge.

The skid-mounted unit shall consist of;

a) Suitable power takes off arrangement from the truck chassis which shall be used for driving various components of the unit.
b) Body
c) Tail gate
d) Packer plate
e) carrier plate
f) Ejector Plate
g) Controls
h) Hydraulic system
i) High Pressure Washing System (Optional)
j) Safety Features
k) Standard Accessories
l) Painting

The above equipment shall be mounted on client supplied chassis with cabin & PTO of 16T GVW and 4200 mm wheelbase.

REAR LOADER:-

Unit shall be rear-Loading type with loading height approx. 1 meter from ground level. The operation of compacting, ejecting the refuse shall be hydraulic system. The system shall include the hydraulic pump driven by the chassis engine overheating, necessary filter, adjustable relief valves, DOCV's directional control valves, restriction valves and associated pipelines.

The hydraulic cylinders, hydraulic pump and control valves shall be of reputed make, manufactured by the firm having vast experience in the same field. Hydraulic seamless pipes, hoses, couplings should be of high quality and standard to withstand high pressures. The pipe ends should be flared to ensure perfect seal and prevent leakage even at high pressure.

HYDRAULIC SYSTEM:

1. A heavy duty, single speed power take-off shall be provided by chassis manufacturer and shall be compatible with that of chassis transmission.

2. The power take-off must run quietly. Gearing shall be selected for minimum engine R.P.M. compatible with recommended R.P.M. for correct operating pressure and flow per minute.

3. The hydraulic pump shall be designed to operate continuously with peak loading at frequent and short interval. The pump displacement at 1500 rpm should be 75 L/min. It shall be derived by the PTO via propeller shaft.

4. All hydraulic hoses shall be as per relevant standards for designed pressure. Hoses shall have adequate safety factor over maximum relief valve pressure setting. The hoses shall be rigidly mounted on the body, wherever possible.

5. The hydraulic system shall incorporate relief valves to protect all components from excessive pressure and overloads.

6. A replaceable, 10 micron filter should be provided in return line of hydraulic system.

7. All hydraulic components should be easily accessible for inspection.

SAFETY FEATURES:

1. Hose burst valve shall be fitted to the system to prevent the tailgate descending in the event of the hydraulic failure. Emergency stop switch shall be provided to stop all the operations instantaneously in case of emergency. The switch shall be provided on either side of the vehicle.

2. There shall be a 'body prop' provided on the tailgate to hold the tailgate in the open position for safety of workshop personnel when entering the body for maintenance or repair.

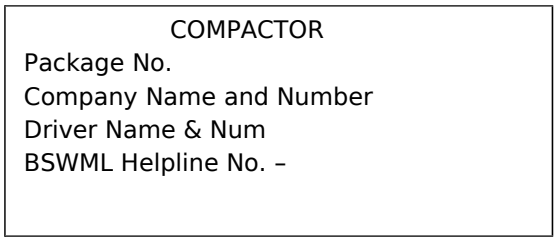
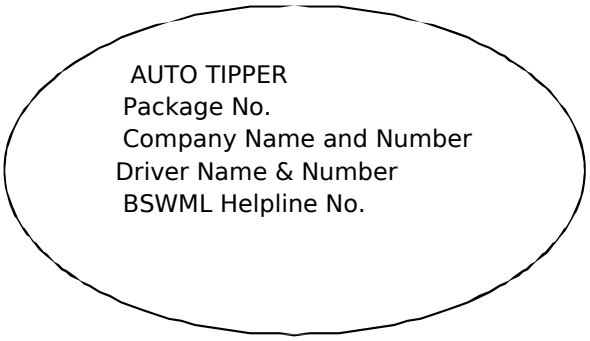
1. **The Service Provider shall paint and also mention the type of waste on compartment like wet waste, dry waste, other waste on dedicated other waste auto-tipper with the following details on the body of the Vehicle on both sides in Kannada and English. The same muse be updated regularly as per directions given by the Authority.**





Schedule C: Scope of Work

The Operator shall carry out the following MSW management Operations, in accordance with Good Operating Practices, as set out in this Contract and as per SWM Rules 2016.

Part 1: Scope of Work

1. **Primary door-to-door collection of MSW:**

    a. **From Households and small commercial establishments** (including hotels): wet, dry, sanitary and other waste in segregated manner using covered and compartmentalized auto-tipper. In residential area collection will be done from all the households at least once a day and in small commercial area twice a day - morning and evening time. All vehicles employed for door-to-door collection shall be installed with GPS tracker and a loudspeaker for announcement/IEC activity and the same shall be operated in a way that does not cause unnecessary disturbance in the area.

    b. **From other areas in BBMP limits**: Primary collection from slums, vegetable/ fruit shops, small commercial, small institutional, open dumping points, public places, litter bins, Garbage Vulnerable points and any other areas not excluded elsewhere in this document from Package Area of BBMP as defined in SWM Rules 2016.

2. **Transportation of MSW**:

    a. **Primary Transportation of dry waste to DWCC**: The agency will have to collect and transport segregated Dry waste to Dry Waste Collection Centers (DWCC) within the Package on a daily basis, or as directed by the Authority for the entire duration of the Agreement directly using compartmentalized auto-tippers.

    b. **Direct Secondary Transportation of MSW to processing facilities where BSWML has standing commitments:** The agency shall be required to transport segregated waste to the decentralized processing facilities in the Project Area where BSWML has standing commitments, as directed by the Authority in a segregated manner for the entire duration of the Agreement on a daily basis, directly using compartmentalized auto-tippers.

    c. **Direct Secondary Transportation of MSW to other processing facilities**: For a period of minimum one year from the Letter of Award, the agency shall be required to transport segregated waste to the processing facilities in the Project Area (including centralized pre-existing processing facilities as per and new facilities set up by the ISWM Project Concessionaire) as directed by the Authority in a segregated manner, using compactors.

        BSWML plans to have Transfer Stations in each division of the BBMP area. These Transfer Stations (if they don’t exist already) are planned to

be developed by the Authority in the next 1-2 years. The responsibility of Secondary Transportation may be **extended beyond one year**, and shall be terminated with an advance notice of at least 3 months by the Authority. At the end of this period, this responsibility shall be taken away from the scope of the agency, and the deployment of agency's compactors for this purpose shall be terminated.

After the development of the Transfer Stations, all the waste collected from Primary Collection activities (including wet waste, mixed waste, sanitary waste, animal waste, animal carcass, etc.) must be delivered in a segregated fashion to the designated Transfer Station in the Package, or as directed by the Authority, as part of Primary Transportation activity.

d. **Transportation of Animal Carcass/other waste:** Collection of dead animals, tree/shrub & cuttings from de-weeding operations as needed, and subsequent transportation to designated locations as directed by Authority.

3. **C&D Waste:** Collection of C&D waste from Micro-Level generator (up to 300 Kgs) and secondary transportation of the same to the designated C&D processing or disposal facility as directed by Authority.

4. **Weighment:** Ensure all vehicles are weighed at the weighing bridges installed at the designated waste processing plants, proposed transfer stations, DWCCs, MRFs of BSWML or its empaneled agencies and empty the vehicles at the specific spots as directed by the Authority or its empaneled agencies.

5. **Vehicle tracking:** Install and operate GPS tracking system/any other app/equipment on all the transport vehicles as specified by the BSWML, to ensure all vehicles can be tracked in real-time.

6. **Reporting:** Furnish daily, weekly and monthly report of waste collected in each trip as per format specified by the Authority.

7. **IEC activities**: Actively participate and cooperate in public awareness campaigns organized by BSWML/ BBMP/ Any Government Organizations.

8. All the clauses mentioned in the RFP applies to the scope of work of this tender.

9. Agency/ Bidder will have to collect and transport in night shift for commercial areas only.

10. Comply with all statutory norms and Applicable Laws throughout the duration of the contract.

The above scope of work shall be carried out using vehicles color-coded in the following fashion:

1. **For the collection of organic/wet waste, inorganic/dry waste, and sanitary waste**: Three/Four wheeler auto tipper, covered, compartmentalized vehicle of 2 cum capacity, Green and Blue color-coded, along with Yellow bins

2. **For the collection of domestic hazardous waste**: 100 liters yellow color-coded bin.

3. **For collection of commercial waste**: Covered, compartmentalized vehicle having a capacity of 5 cum, Purple color coded, along with Yellow bins. Wet: dry ratio in compartments to be 60:40.

4. **For the collection of street-sweeping waste, other waste in morning & night shift and C&D waste**: Open vehicle having a capacity of 5 cum, Brown color-coded.

Additional requirement / scope:

Whenever there is additional requirement of vehicles for both primary collection or secondary collection due to specific circumstances like revision in micro plan, public events held in the ward, major festivals, Jathras, etc, additional vehicles would have to be provided by the service provider on request by BSWML at the same contract award agreed rates.

Reduction in scope:

Also in view of BSWML building its own SWM infrastructure such as Solid Waste Transfer Stations, purchase of SWM vehicles / machines / Equipment, setting up own centralized and decentralized waste processing plants, DWCC's and up-gradation of existing centralized and decentralized waste processing facilities, utilization of existing SWM vehicle infrastructure in times of need, and also based on actual field level waste generation assessment subsequent to award of tender, the scope of work of tender would be suitably amended where found necessary during the remaining period of work, under due intimation to the service provider. This clause may also be applied in case of non-performance of assigned work by selected agency(s).

All the successful bidders have to compulsorily procure the new vehicles for primary door to door collection of capacity 1 Cum, 2 cum and 5 cum as per this RFP, except Compactors. New/old Compactor with fitness certificate for operations in the next one year from the concerned authority may be deployed by the Selected Bidders. All vehicles must be BS-VI/prevailing emission standards compatible vehicles. All new vehicles will be covered vehicles only. The vehicle used for collection of street sweeping waste and C & D waste will be an open vehicle and this should be part of methodology and work plan. The deployment of compactors will be withdrawn after a period of 1 year (or as per extension granted by the Authority) and no payments shall be made towards the works of Secondary Transportation beyond this period.

Data Upload and Digital Monitoring:

The entire SWM vehicles movement of door to door collection and secondary collection and transportation would be digitally monitored through BSWML's Control and Command Centre and also through mobile apps and technologies of RFID/GPS integrated to a centralized control room and made available for citizens to view. The service provider would have to oblige to any such mandatory requirements of data uploads and tracking systems imposed by BSWML for the purpose of monitoring performance standards and imposition of penalty as prescribed. BSWML will establish an ICT based solution to enhance the effectiveness of collection and transportation system. And all successful Bidders have to comply the instruction of authority from time to time. BSWML will install RFID, GPS and Push-To-Talk system in all the primary and secondary vehicles. After the completion of each trip, primary Door to Door collection vehicle compulsorily go at the weighing scale point (as per direction of the Authority) and after weighing only it will further go to the designated transfer point. With the help of effective ICT based monitoring system, all the weighing records will be directly send to SWM Control and Command Centre. These will make the process smooth, man less and temper free. All primary and secondary vehicles are monitored and tracked from SWM Control and Command Centre through dedicated screen, one screen is allotted for the monitoring of one package.

Note:

1. As part of accommodating the services of SHGs/ PKs/ Rag Pickers/ marginalized sections of society as per the Government Order no: SWD 34 BCA 2004, Bengaluru, dated: 10.03.2005 BSWML reserves the right to ask the Service Provider to substitute the manpower to the extent of a maximum of 24.10% (or as per the latest Government order) of manpower allocation in the Package. The Service Provider shall be obligated to accommodate the same and shall pay for the personnel as per the same agreed payment terms, subject to them meeting all the requisite performance parameters.

Part 2: Proposed Work Plan and Methodology

The Bidder shall submit a detailed proposed work plan and methodology on door-to-door collection of segregated wet waste and sanitary waste, collection of street sweeping waste, segregated transportation of the same to designated locations and plan for a garbage spot free and visually clean ward. The Bidder shall also elaborate on the measures proposed to optimize the resource utilization, achieve 100% coverage and the training and IEC for ensuring segregated waste collection and transportation.
